God's Mission – Our Community will deepen the missional imagination, theological vitality, and Biblical depth of rostered and congregational leaders within the Saskatchewan Synod. Congregations are invited to send leadership teams of the pastor and four key leaders. Your leadership group will explore how God is at work in your community and learn to articulate God's invitation for your partnership. We will achieve these goals as we learn to use the four missional practices of: asking purposeful questions, using participative processes, working playfully, and taking location seriously.

This event is planned for Saturday to allow for coordination with the joint Conference Conventions on Friday evening.

- March 20, Swift Current and Yorkton in Regina
- March 27, Prince Albert and Saskatoon in Saskatoon
